Sayani Maity

B.Sc. Digital Forensics Student | (CEH) v13 AI Certified
Howrah, West Bengal, India | Open to Remote Opportunities
Portfolio | Github | Linkedin

PROFILE

An inspiring Digital Forensics Student with interest in Cybersecurity, Pentesting with hands-on experience in forensic tools, Python and Cybersecurity tools.

EDUCATION

- Bachelor of Science in Digital Forensics, 2023-2026 (Pursuing) at Indian School of Ethical Hacking (ISOEH) under Maulana Abul Kalam Azad University of Technology, West Bengal, India, (MAKAUT).

EXPERIENCE

- VAPT Intern at ISOAH Data Securities Pvt. Ltd. Kolkata from 12/03/2026 for the period of 3 months.

TECHNICAL SKILLS

- **Forensics Tools:** Magnet Axiom, ZAP, Autopsy, FTK Imager.
- **Cybersecurity Tools:** Nmap, Burpsuite, OpenVAS, Wireshark, Nessus, Nikto.
- **Programming & Scripting:** Python, Shell Scripting.
- **Security Areas:** VAPT, WAPT, Network Security, Cryptography.
- **Operating Systems:** Kali Linux, Black Arch, Parrot, Ubuntu, Windows.

CERTIFICTAIONS & TRAINING

- (CEH) v13 AI Certified. (*link*)
- Core Python Programming Course: Completed. (*link*)
- Participated in **CTF events, organising CTF and workshops** like*:* Cyraksha, Infocom Hackstar, Cryptoquest, MAKAUT CTF. *(link)*
- Deloitte Australia Cyber Job Simulation (Forage). (*link*), Mastercard & New York Jobs CEO Council – Cybersecurity Job Simulation (Forage). *(link)*
- *CPPS (link), CRTOM (link), CCEP (link), CTIGA (link)*

PROJECTS

1. **Forensic Analyzer –**
   - Develop a Web-based Digital Forensic Learning Tool. (Nov 2025-Present)
   - Implemented Basic Hashing and encoding Features.

2. **Cyber Security Multi Tool Launcher** – (Aug 2025- present)
   - GUI platform for VAPT, Penetration Tester, Network Scanning, & Digital Forensics.
   - One-Click interface to manage Multiple Tool.
   - Streamlines Cybersecurity tasks for Efficiency and Ease.

3. **AI – Powered Phishing Email Detector –** (June 2025- present)
   - Detect Phishing Emails using AI based analysis.
   - Analyses Header and content for Malicious Patterns.
   - Enhances Email Security awareness and Threat Prevention.

KEY STRENGTHS

- Hands-on experience in Digital Forensics and Evidence analysis.
- Skilled in Network and web application security Testing.
- Quick Learner, adaptable and passionate learner about Cyber security.
